SUMMARY

I'm a experienced full stack developer who works with the MERN stack and Flutter, which involves using MongoDB, Express.js, React.js, and Node.js. My expertise spans both the creation of visually appealing frontend interfaces and the implementation of robust backend logic. I really enjoy making websites look great and user-friendly. I'm always learning and excited to be part of a web development team.

I specialize in creating seamless and responsive mobile experiences, excelling in mobile application development. My expertise extends to the development of REST APIs, that serve both web applications and mobile platforms. On the back-end, I possess a strong grasp of server-side logic and database management. Meanwhile, my front-end skills focus on crafting engaging and intuitive user interfaces.

SKILLS

·MongoDB	·Express.js	·React.js	·Node.js	·Flutter	·Dart
·JWT	·Socket.io	·HTML/CSS	·JavaScript	·Version control (Git)	·Redux
·Postman	·Reactstrap	·Bootstrap	·PHP(CodeIgniter)	·PHP(Smarty)	·MySql

PROJECTS

MERN Stack — **Chat App**
Created a full stack MERN chat app enabling secure one-to-one messaging with JWT for authentication and Socket.io for real-time communication. Implemented a responsive UI with React, integrated MongoDB for data storage, and ensured a smooth user experience with Reactstrap and Bootstrap.Incorporated Redux to streamline state management, improving data flow and scalability.

MERN Stack — **Job Portal**
Developed a full stack, a user-friendly job portal using MERN stack, helping people find great jobs and companies find the right candidates. Utilized various libraries to make the platform efficient and effective.Implemented features such as advanced search filters, and a responsive design, ensuring a seamless and enjoyable experience for both job seekers and employers on the platform.

Php(Codeigniter) — **Connected Care**
Connected Care is my first major project, built with PHP's CodeIgniter framework. It connects hospitals for effortless patient data sharing and simplifies the process of finding organ donors, promoting a compassionate healthcare community.

EDUCATION

2020 - 2023 **University Institute of Technology (UIT) Pathanapuram** _College_
Bachelor of Science. Computer Science

2018 - 2020 **Government HigherSecondary School,Punalur** _Higher Secondary_

2013 - 2018 **ST.MARY'S HSS kizhakkekara** _High School_

EXPERIENCE

2023 - Present **MERN stack developer Intern** _Softzane Solutions_
· Experienced MERN stack developer skilled in both front end designing and back end development. Passionate about creating user-friendly interfaces and UI design. Proficient in responsive design, problem-solving, and collaborative teamwork. Actively engaged in code reviews and committed to adopting best practices. Eager to contribute and continuously learn in web development projects.

LANGUAGES

English, **Malayalam**, **Hindi**
